

Las Vegas Nightlife Redefined With Blush

August 6, 2007

Opens Labor Day Weekend at Wynn Las Vegas

LAS VEGAS, Aug 06, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- Casino developer Stephen A. Wynn and renowned night club operator Sean Christie have partnered to create Blush, the first boutique nightclub in Las Vegas, opening Labor Day Weekend 2007.

"We wanted to create an intimate nightlife experience that we have termed 'the boutique nightclub'," said managing partner Sean Christie. "Blush offers a unique option to the Las Vegas scene as the club seamlessly transforms from elegant lounge to high-energy nightclub."

Formerly the location of Lure, the venue will undergo a complete remodel under the direction of Wynn's Executive Vice President of Design Roger Thomas. The 4,500 square-foot club will feature a lit onyx dance floor and creme lantern ceiling sculpture. This central art focal piece will create various hues and images that enhance the vibe and atmosphere as the display literally comes alive nightly.

A rich palette of deep green, chocolate brown, gold and shimmering metallics create an ambience of sensual elegance. The club will feature a series of contemporary paintings that add a provocative and edgy feel. Additional seating banquettes around a new dance floor will produce a circular flow to the space. The open-air patio and bar have been enhanced with lighted topiaries and outdoor seating surrounded by lush foliage.

In addition to banquettes and bottle service, a private, draped VIP Room is available for up to 25 people. Additional men's and women's restrooms have been added as well as some playful amenities -- purse drawers at each seat and personal lockers for belongings.

Delectable Asian appetizers from Red 8 will be served nightly from 5 P.M. until 9 P.M. Beverage menus, including wines by the glass or bottle and an extensive collection of infused vodkas, will change on a monthly basis.

The club will feature an eclectic mix of music -- rock n' roll, hip hop and house -- from Music Director and Resident DJ Mighty Mi. Every Thursday, DJ Jack Lafleur will take the stage with his signature style. The lighting and sound system was designed by John Lyons, winner of the World Club Award.

Blush Tuesdays, service industry and local night, will be promoted by Brandon Roque and begin September 4.

Prior to partnering with Wynn Las Vegas, Christie was a founding member and managing partner of The Light Group. He was also an integral part of The Lyons Group which owns and operates more than 30 nightclub venues on the East coast.

Table reservations (702-770-3633) are highly recommended. Free admission for Local Ladies and Service Industry professionals nightly. Blush Tuesdays is the dedicated Industry night. Visitors cover is \$30.

Blush is open nightly at 5 P.M. and transforms into an energetic, sensual club on Tuesday, Thursday, Friday and Saturday nights from 10 P.M. until 4 A.M. Located off the main casino floor of Wynn Las Vegas Resort and Country Club.
