2Q26 Earnings Presentation

August 2026

Forward-Looking Statements

This presentation contains forward-looking statements regarding operating trends and future results of operations. Such forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those we express in these forward-looking statements, including, but not limited to, reductions in discretionary consumer spending, adverse macroeconomic conditions and their impact on levels of disposable consumer income and wealth, changes in interest rates, inflation, a decline in general economic activity or recession in the U.S. and/or global economies, extensive regulation of our business, pending or future legal proceedings, ability to maintain gaming licenses and concessions, dependence on key employees, general global political conditions, adverse tourism trends, travel disruptions caused by events outside of our control, dependence on a limited number of resorts, competition in the casino/hotel and resort industries, uncertainties over the development and success of new gaming and resort properties, construction and regulatory risks associated with current and future projects (including Wynn Al Marjan Island), cybersecurity risk and our leverage and ability to meet our debt service obligations. Additional information concerning potential factors that could cause the Company's results to differ materially from those described in this presentation are included in the Company's Form 10-K for the year ended December 31, 2025 and the Company's other periodic reports filed with the Securities and Exchange Commission from time to time. The Company is under no obligation to (and expressly disclaims any such obligation to) update its forward-looking statements as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

This presentation includes non-GAAP financial measures. Non-GAAP financial measures are not measures of financial performance in accordance with GAAP and should not be considered in isolation or as an alternative to the most-directly comparable GAAP measure. Definitions of these non-GAAP financial measures may be found in the accompanying earnings release, and reconciliations to the most directly comparable GAAP measures are included in the appendix to this presentation.
